

Mini Candle Holder

Candle size: 12 mm Diametre, also known as Christmas Tree Candles.

I recommend you use self-extinguishing candles, otherwise make sure to put the candle out leaving at least 1cm at the bottom. The candle might drip on the table top, so make sure it's safe.

Never leave burning candles unattended.

Cleaning & Care Instructions

The silver can be washed in soap and warm water using a kitchen sponge, even scotch-brite.

When the silver tarnishes the best cleaning solution is silver foam, but any silver polish from your local supermarket will do.

To remove candle drippings, pour boiling hot water over the candle holder - but don't touch the silver until it's cooled down.
